PERRIN'S

GLOVES

A Few Facts About Kid Gloves.

THERE is no article in the Dry Goods trade more difficult to handle satisfactorily than Kid Gloves. Let the following facts be borne in mind:

Kid Skins and Lamb Skins

are not manufactured to order in a loom where the material, the weave, the weight, and the strength, can be controlled; they grow on animals, subject to change of weather, of food, and of other conditions such as cause the variety we see in nature.

The manufacturer has to depend on the honesty, ability, and care of his work-people in the selection and manipulation of the skins, and they, like all human beings, often err.

A nice kid glove is the most important part of a ladies' dress. We have made our KID GLOVE department very large and complete. We have stuck to well known and reliable makers and kept the same brand for years. We have Blacks, Tans, Browns and Greys in stock, both in Bretagne, Lacing and Stud fastenings. Every pair fully warranted when correct size is purchased.

A DELICATE OPERATION.

Paralyzed by a Plunge in Shallow Water Against a Rock.

Niagara Falls, Aug. 8.—A. R. Stewart Palmer of England, while bathing on July 18th, took a plunge in shallow water and struck his head on the bottom. Bystanders took him from the water and found that he was paralyzed from the neck down. In the general hospital at Toronto the fractured part has been removed by a delicate operation. Palmer is now able to converse, but the doctors say his recovery will be a miracle in the history of surgery.

A GENEROUS GOVERNOR.

Matthews of Indiana Advances the Money to Pay the Militia

Indianapolis, Ind, Aug. 8.—Governor Matthews has decided to pay off the militia who were in service during the strike with borrowed money. In order to secure it he must give his own note, and he has decided to raise it in this way, trusting to the legislature to reimburse him. The amount required is about $45,000. He assumes the responsibility, he says, because many of the soldiers lost their work or are out of work, and if they are not paid they will be made the victims of the money lenders, who will cut their claims in two.

MORE BLOOD SHED FOR COREA

Japanese Defeat Chinese on Land, But Are Themselves Defeated at Sea.

Corean Minister at Washington Appeals for His Unfortunate Countrymen.

London, Aug. 8.—A Yokohama dispatch says that the Chinese have been defeated by the Japanese at Selkionn, with a loss of five hundred killed and many wounded. The Chinese fled towards Koshiu. The Japanese loss is trifling. The occupation of Yashan by the Japanese is confirmed. There is much excitement at Yokohama over the recent victories of the Japanese. At Tokio the excitement is intense and feeling is running high. Chinese will be permitted to reside in Japan provided they do not participate in any warlike movement. It it is reported here that the Japanese fleet has been badly defeated by the Chinese fleet.

Washington, D. C., Aug. 8.—The appeal of the Corean minister, Mr. Ye Sung Soo, in behalf of the starving people in his unhappy country, has met with a prompt response, and the minister is hopeful that there will be a general movement for the relief of the inhabitants of Corea on the part of the charitable Americans who performed such a noble act of charity a few years ago when the peasants of Russia were starving to death. The first response to the minister's appeal is the following telegram received yesterday at the legation: "New York, April 7.—To the Corean Charge d'Affaires, Washington: The reports of the alarming and pitiful condition of affairs among the people of Corea call for our deepest sympathy. The Christian Herald will contribute a thousand barrels of flour to any cargo that may be sent for the relief of your starving people. Let us know how we can best help you to help them. (Signed) The Christian Herald Bible House, New York."

The minister says a ship load of grain would be of more benefit now than any other boon that could be conferred on them, and he is confident that if the people of the United States, whom the Coreans have long regarded as their best friends, should dispatch a vessel to Corea on such an errand of charity, it would not be molested by either of the great countries that are at war with each other and between whom Corea is the bone of contention.

London, Aug. 8.—Submarine mines have been laid at Foo Chow and at Tamsui, on the northwest coast. The Formosa lighthouses on the Chinese coast have been ordered to quench their lights.

The Times says the viceroy of Kwang Tung has engaged five thousand Black Flags to strengthen the fortifications and river defences in the neighborhood of Canton. He has placed four gunboats at Tiger Island to co-operate with the batteries stationed there.

Dispatches from Tientsin say the reported efforts of England and Russia to arrange a settlement between China and Japan have proved futile. China has refused to waive her claim of suzerainty over Corea.

San Francisco, Aug. 8.—Edward A. Morphy, a well known newspaper man of this city, sailed yesterday by the steamer Gaelic, en route to Seoul, where he will act as correspondend for Pacific coast papers.

Paris, Aug. 8.—Le Matin says if any power outside of China and Japan should attempt to obtain an advantage in Corea, France should reserve the right to so act as to secure a similar advantage.

PATTI ROSA DEAD.

The Popular Soubrette Dies at Boston From an Operation's Effects.

Boston, Aug. 8.—Patti Rosa, the well known soubrette, died on Sunday. She was the wife of John W. Dunn, who left with the remains for Chicago, where the funeral will take place to-morrow. Patti Rosa had intended to leave for Newport last week to spend several weeks before entering on an extensive tour which had been mapped out for her. Not being in good health, however, she decided to undergo a medical examination, and on Monday last it was found that she was suffering from a severe form of appendicitis. She was operated on at St. Francis hospital Tuesday, from the effects of which she died.

(Patti Rosa was a popular actress of the Lotta school of comedienne, being clever as a singer and dancer. She was last seen in Victoria in February last, appearing in "Dixie" and "Dolly Varden," two of her old stock pieces, with which she has starred the Pacific coast for many years. She was small in stature and of highly nervous temperament, which was greatly aggravated by her long seasons of hard work, and which laid the foundation of the disease which carried her off. She had the reputation of being a good woman, exceedingly devoted to her husband and family, and will be regretted by many professionals who were indebted to her for favors extended in times of distress.)

FIGHT AT BLUEFIELDS.

Clarence Retreats From the Bluffs when His Ammunition Falls.

New York, Aug. 8.—A Colon cable says: General Ortis has relieved General Cabezas at Bluefields, and proposes, with the help of General Reges, to attack Chief Clarence. Chief Clarence has fortified himself in Bluefields. The Mosquito Indians are getting reinforcements from the interior. They to-day received arms and ammunition shipped from here last week. The steamer Para left Panama yesterday for New York, carrying two commissioners appointed by Chief Clarence, and C. Barries, a Nicaraguan plenipotentiary, to England. The latter's mission is reported to be to ask for a British protectorate. Clarence was obliged to abandon the Bluffs because his ammunition was exhausted, and not because he could not withstand the attack made by General Cabezas. Besides a part of the Jamaicans, principally half-breeds, threatened to revolt, fearing the threats of Captain Stewart, of the British cruiser Mohawk.

A cable from Managua, Nicaragua, says: Advices from the Mosquito coast report that General Cabezas only forced the Indians to withdraw after a desperate battle. In the general orders President Zeelay publicly congratulate General Cabezas and the soldiers under him. Instructions have been sent by special courier to General Madrix and Senor Urueta, who were to meet Chief Clarence at the mission, to make more exacting conditions than at first proposed, as General Reyes is on the ground with reinforcements. General Cabezas proposed sending a mission to Clarence. He says the Indians will not respect any treaty.

MILITIA REFUSE TO DRILL

Westminster's Citizen Soldiers Objected to the Newly Gazetted Officers.

Officers Who Never Before Wore Uniforms—Immense Run of Salmon.

New Westminster, B. C., Aug. 8.—(Special)—No. 4 Company, B. C. B. G. A., was ordered to parade last night in preparation for the inspection, which was fixed for September 15th. The men turned out well, but refused to drill unless one or two of their newly appointed officers sent in their resignations. Lieut. Townley thereupon announced that no more drills would be held until further notice, and in the meantime he would report to Col. Prior. Some time ago a complete new staff of officers were gazetted, not one of whom had ever worn uniform and had absolutely no knowledge of military matters. These were to be major, captain and lieutenants respectively. The men objected to being put under officers who knew nothing of military duties and in whom they could have no confidence if called upon for active service.

Rev. Thos. Scouler, St. Andrew's church, and Rev. G. B. Greig, West Presbyterian church, have resigned, and the latter's resignation has been accepted by the Presbytery. The financial depression is the cause of the trouble.

The salmon run to-day is immense. Most of the canneries worked all night.

MR. GEOFFRION DEAD.

A Prominent Liberal Lawyer and an ex-Minister.

Ottawa, Aug. 8.—C. A. Geoffrion, M. P. for Vercheres, who died yesterday, aged 62, was at one time minister of inland revenue in the Mackenzie government. He resigned on account of ill health and Mr. Laurier came into the government in his place. This leaves two vacancies in the house in Quebec, the other being in Quebec West.

A PITCHED BATTLE.

Two Cousins Fight with Rifles in Kentucky.

Louisville, Ky., Aug. 8.—William Upton was killed yesterday in Lewis county by Edward Upton, his first cousin. William Upton had abandoned his family and eloped with Edward's sister Zada whom he had betrayed. The killing was the result of a pitched battle in which William was shot through the heart.

Washington, D. C., Aug. 8.—The appointment of Ellis Mills of Virginia as consul-general at Honolulu and John M. Griffin as postmaster at Madeira, California, has been confirmed.

Brief Locals.

—The Kingston last night brought over a car load of hoisting machinery for the Union Colliery company of Comox. The supplies are from the Bell Engine Co., of Erie, Pa.

—The commanding officers' parade of the headquarters companies, B. C. B. G. A., will be held to-morrow evening, the men assembling at the drill hall with helmets and leggings.

—The Salvation Army officials have secured the Lyceum hall for temporary quarters, and the following announcement appears on a large banner which spans the street: "Major and Mrs. Read August 11, 12, 13 and 14. Feed day at the Gorge on Saturday. Sunday battle for souls. Building demonstration Monday. Rescue demonstration Tuesday. Ajt. Archibald in command."

—Ald. Styles reports himself as exceedingly well pleased with his California trip. "That country," said he, "is a combination of garden and orchard from one end to the other. I went down through the central part of California, and was deeply impressed by what I saw. No words of mine can convey an adequate idea of the fair and its many attractions. After all, though, I am glad to get back to Victoria. Home is home, you know, after all."

—The case of Charles H. Gordon, charged with fighting and attempting to carve a "lady" with an axe, occupied the attention of the police court during the greater part of the day, and was still on when the Times went to press. Gordon was arrested by Officer McDonald at about 1.30 this morning in front of the Bee Hive saloon. Gordon and a young man named Levi were struggling over an axe. For the defence Andrew Kelly was called. He frankly admitted that owing to having taken fifteen or twenty "shandy-gaffs" and four or five whiskeys his mind was not clear on some points. He remembered that Gordon had taken the axe from the coal shed, said he had it in for Levi, and leaned the axe against the building. The next he saw of them they were struggling. The "lady" in the case, Flossie Russell, was in the box testifying that Gordon had tried to institute some important changes in her anatomy with the axe, when the reporter departed.

CAESORIO'S MOTHER'S APPEAL

She Asks the Widow of the Murdered President to Intercede for Her Son.

Lord Egerton and the Duchess of Buckingham Married To-Day—Cable News.

Paris, Aug. 8.—It is reported that Caserio's mother has asked Madame Carnot to intercede for her son. A letter has been published here from Caeserio to his mother in which he asks: "What must you think of me," and adds, "you cannot think I am an assassin. If I committed this act it was simply because I was tired of looking on such an infamous world."

London, Aug. 8.—Sandow, the professional strong man, was married to-day at Manchester to Miss Blanche Brooks, the daughter of a Manchester photographer.

The Mark Lane Express, in commenting on the British harvest estimates, as based upon the usual reports from all parts of Great Britain, says the yield of wheat will be 16 per cent. better than in 1893, and will be the best crop gathered in several years, and that the conditions are generally calculated to cause rejoicing among farmers, and that the harvest altogether will be better than previous harvests for many years if the weather favors garnering.

Four people declared to be suffering from cholera were removed from the steamship Balmoral, which arrived from St. Petersburg yesterday.

A Rome dispatch says Sicily was shaken up by a terrible earthquake to-day. Many were killed and enormous damage was done to property.

London, Aug. 8.—Pugilist Mitchell will leave for America in the fall.

Lord Egerton of Tatton and the Duchess of Buckingham were married to-day by the Archbishop of Canterbury.

The ship Colintrave, which sailed from Newcastle, N. S. W., March 16, for San Francisco, and the bark Alon Cefni, from Swansea, January 4th, for San Francisco, were posted by Lloyd's as missing to-day.

Rome, Aug. 8.—The pope, in an encyclical to the Brazilian bishops, refers to the press as a secular weapon which churchmen ought to know how to employ. He also urges the bishops to interest themselves and to use their influence in political elections.

Amsterdam, Aug. 8.—Five new cases of cholera and three deaths from the disease have been reported in Maastricht in the last two days. Five cases and two deaths have been reported in Halfweg, a village near Haarlem, and one death in Haarlem.

Marseilles, Aug. 8.—An Italian anarchist recently from America has been arrested with a quantity of explosives in his possession.

BIG SUIT COMMENCED.

Several Million Acres of Land Along the Northern Pacific Involved.

St. Paul, Minn., Aug. 8.—The receivers of the Northern Pacific road have sued the St. Paul, Minneapolis and Manitoba road, John S. Kennedy and James Roosevelt of New York, R. B. Angus of Canada and the Central Trust company of New York, for several million acres of land in five states along the two roads. The suit is based on irregularities in the land grants.

PREHISTORIC POPULATION

Burial Ground of Probable Sun Worshippers Discovered in Michigan.

Adamsville, Mich., Aug. 8.—The burial ground of an ancient race has been discovered near here. The remains indicate that the aborigines were at least seven feet tall and proportionately large. The head was quite different from that of the Indian. It is noticeable that no matter in what position the bodies were interred the faces were always towards the east. Many think that this indicates that they were sun-worshippers. Hundreds of people have viewed the mummified remains.

CHARGED WITH ELECTRICITY.

Flashes of Electricity Burst from All Parts of a Wooden House.

Baltimore, Md., Aug. 8.—There is a house on Bond street in East Baltimore which the occupants believe to be bewitched. H. Kotschinsky and family and seven tailors who live there say that bright flashes of electric fire burst forth from different parts of the house. On Friday last Mrs. Kotchinsky says she approached an iron wash basin on the second floor and attempted to turn the water when she received a severe shock and in an instant a big streak of blue blaze shot out and the zinc around the basin began to melt and fell in drops on the floor. The woman was speechless with fright and it was some minutes before she recovered the possession of her senses sufficient to run down stairs and give the alarm. By that time all the water pipes in the house were charged with electricity and sparks darted from all over the house. In a few minutes the current was cut off and no more electricity was apparent until Sunday morning. Then the house became charged again, and thinking that by turning off the water the current would be shut off, a plumber was sent for who, by means of rubber gloves turned the water off. The minute the water left the pipes a section of iron an inch in diameter became red hot like the carbon of an electric light and instantly melted. New pipe was put in, when the current again cut itself off and all went well until Monday morning when sparks and flames were again seen playing about the pipes. The display lasted only for a few minutes, but yesterday morning it started up again and set fire to the woodwork. The blaze was extinguished with buckets of water and in half an hour the current again subsided.

MINISTERS TAKE HOLIDAYS.

A Very Small Proportion of the Cabinet Left to do Business at the Capital.

Proposal to Extend the Charter of the Chignecto Ship Railway Company.

From Our Own Correspondent.

Ottawa, July 31.—There is a lull in the political atmosphere here now after the close of the session, and ministers are away in search of a secluded spot so as to escape the hot spell and in addition get recuperated after their long and tedious parliamentary duties. Although it is only a week since parliament prorogued ministers have been able to draw themselves away from their departmental duties, and to-day it would be hard to get a quorum of the cabinet in town. Sir John Thompson is away in the wilds of Muskoka enjoying a holiday in the pretty summer residence of Senator Sandford. After all it is in accordance with the eternal fitness of things, as an old friend of mine would have said, that one of the leading monopolists who helps to elect and keep the government in power out of the moneys he gets from the public treasury, wrung from an overtaxed people, should in this way entertain the premier of the country. Senator Sandford has been for years a contractor for militia clothing, and is also interested in the woolen goods manufacturing business. When the woolen duties were being fixed last session they were so arranged at the very outstart that they did not interfere with the senator's interests. There is, therefore, no wonder that the senator from Hamilton should set apart his lovely summer residence in Muskoka for the premier, but the wonder really is that he did not invite Mr. Foster as well.

Speaking of the finance minister, who has gone to New Brunswick, it must be said he is far from well. There is a good deal of the political humbug about George Eulas Foster, but it is all necessary for the carrying out of the policy which he has to administer. Personally the finance minister is perfectly free from any kind of political corruption. He fixed the tariff to suit the monopolists, and there he leaves the matter. Mr. Foster put in a session which would have almost killed any other man who was disposed to look seriously at the work in which he was engaged. The sole question before the finance minister was what would best suit the interests of the party, no matter how the interests of the country might suffer. This was plainly shown by the tariff revision. The country demanded a reduction in the tariff. The government thought this would be best for its political interests and proceeded to carry out the arrangement. Their masters, the monopolists, refused to follow them, and immediately the government retreated and restored the tariff to pretty near the old basis. As a result there are a few decreases, but there are just as many, and a great deal heavier increases.

As I said, Mr. Foster is responsible for the carrying out of the system, but that is all. When the monopolists come to pay toll there are others who can look after that part of the business. When the loodle fund comes to be collected Hon. John Haggart can attend to its distribution.

The minister of railways has also been enjoying a holiday. The peculiarity in his case is that no one knows where he has been. He disappeared on the morning of the prorogation and has not been seen since. No one knows where he has gone to. To-day the members of the government are telegraphing all over for him, but cannot find him. He is wanted for to-morrow's meeting of the railway committee of the privy council. There is nothing very strange in this sudden disappearance of Mr. Haggart. When he takes a holiday no one knows where he goes. But his colleagues need not feel disturbed over the matter, for Mr. Haggart will turn up all right to-morrow, as he has done in the past.

Sir Adolphe Caron has gone to England. It is said that his visit is not official, but is nevertheless likely that the country will pay the bill. Hon. W. B. Ives, the president of the council, accompanies him.

Hon. John Costigan is down in New Brunswick among his constituents. The secretary of state does not believe in long jaunts. He is a disciple of Jack Walton and loves a few weeks' fishing in his native province, where he is now, or it may be, up the Gatineau or at his lake in the Chelsea hills, where he has a nice summer residence.

Controller Clarke Wallace, as everybody knows, is in Ireland, stirring up the Orangemen against Home Rule.

Hon. J. A. Ouimet spent very little of his time in Ottawa during recess. He is almost steadily in Montreal or out at his summer home, some distance from there. It is difficult to get the minister of public works even to sign a few documents at his department.

Hon. J. J. Curran, who has not earned his salt since he became solicitor-general, announces that he will remain in his own office at the department of justice during the absence of the minister of justice. This is about as near as Mr. Curran ever can get to even fill temporarily the office of minister of justice. The salary of Mr. Curran, $5,000, could easily be saved to the country.

Sir Charles Hibbert Tupper is spending a few days with his family at Kamarmska.

There are just a couple of ministers, Messrs. Daly and Bowell, running the government machine, and the former intends soon paying a visit to Manitoba and the Northwest.

A. R. Dickey, M.P., and a couple of Englishmen who are said to be capitalists are here trying to resuscitate the Chignecto ship canal scheme, which has already taken away a large amount of public money. They want another extension to their charter. Mr. Ketchum, the promoter, is also here. The last extension granted to the company was in 1891, when parliament adopted a resolution enlarging the time for completion to two years, continuing the bonus and rescinding the clause of the charter which imposed a penalty for non-fulfilment of the compact. The original act of incorporation was passed in 1882, guaranteeing a subsidy of $150,000 a year for twenty-five years, the work to be completed in 1889, and commenced in 1885. Nothing came of this, and in 1886 was amended so as to give the company a subsidy of $17,000 for twenty years, the time for completion not being altered. In 1888 the act was again amended, the time for completion being extended until 1890 with a further extension of two years on condition that every month of the later two years required to complete the work the company should pay the government a penalty of $5,000. The act of 1891, above referred to, removed the penalty and extended the time another year, so that the limit was reached a year ago and the company's charter became forfeit so far as the subsidy is concerned. Since then, however, Mr. Ketchum has been endeavoring to interest English capitalists, who are almost insolvent in the scheme to the amount of over three millions of dollars. The statement has been made that he has succeeded on condition of a further extension being granted, and presumably the arguments that prevailed upon parliament to deal leniently with the company in 1891 will apply to the present demand of the promoters.

SLABTOWN.

AMERICAN DISPATCHES.

A Small Ohio Town Burning—General News of the States.

New York, Aug. 7.—The reorganization committee at Chison meet this afternoon. It is expected Stephen Little, expert accountant who has been examining the books of the company, will make a report.

Missoula, Mont., Aug. 7.—The sheriff has arrested three men charged with being implicated in dynamiting a passenger train here on July 17.

South Bend, Ind., Aug. 7.—Near Kendallsville, this morning, robbers unsuccessfully tried to hold up a fast Lake Shore mail. The switch was thrown and many shots were exchanged between the trainmen and the robbers.

Philadelphia, Pa., Aug. 7.—General Manager Carpenter, of the Carpenter Steel Company, emphatically denies the statements made by May, an employee, reflecting on the armor-piercing shells furnished the government by the company. He declares the company courts the fullest investigation.

Adair, Ohio, Aug. 7.—This town is burning. Help has been asked from the surrounding towns.

Milwaukee, Wis., Aug. 7.—Dispatches from Pittsville, Wis., a small lumber town on the Yellow river, report that the town is surrounded by forest fires. Several buildings and a number of lumber yards have been swept away.

Camden, N. J., Aug. 7.—The boiler of a dredging machine employed dredging the Delaware river at the foot of Federal street, exploded this afternoon. Three men are reported killed and several wounded.

Des Moines, Iowa, Aug. 7.—The fire at Adair burned twenty business houses and three residences. The loss is $80,000.

Nashville, Aug. 7.—Latest election returns show a majority for Oates (Dem.) for governor. The legislature will be Democratic.

Lima, O., Aug. 7.—This city was shaken by an explosion to-day. It is believed the glycerine factories in the outskirts were blown up.

Denver, Aug. 7.—The statement is published here that Deputy Sheriff Wilson of El Paso county has been arrested, being implicated in tar and feathering Adjutant-General Tarsney. He has made a full confession. He implicated a number of prominent men.

DIED OF HICCOUGHS.

The Fit Lasted for Nearly a Month, Ending Fatally.

Trenton, N. J., Aug. 7.—Rev. T. J. Pierce died yesterday after a prolonged fit of hiccoughing. He was presiding elder of Trenton district of the Methodist Episcopal church. He was a man of much learning and a pulpit orator of considerable local fame. He was 56 years old. On July 19 he was taken with a cold and compelled to remain in the house, when he began hiccoughing in a violent manner. The noise of his suffering could be heard across the street. At times his fits of hiccoughing would be more violent than at other times, and after these fits he became very weak. Two physicians attended him. He began to sink a few days ago from gastrics, and the hiccoughing did not stop until he was nearly at death's door.

SOME of our Victoria Merchants still send orders to Toronto and other Eastern Cities, in the mistaken notion that they can get it done cheaper. They of course know they cannot get it done better than in Victoria. We are prepared to do the work at Toronto Prices, if orders of the same size are given to us as are given to Toronto houses.

THE COREAN EMBROGLIO.

Russia Said to be Preparing to Grab a Piece of Corea.

London, Aug. 7.—Captain Lang, a former director of the Chinese navy and supervisor of the building of many forts, said in an interview to-day: "The Chinese are well trained and excellent marksmen. China's navy is about equal to Japan. The Japanese have more dash and spirit than the Chinese have, but all depends on how the Chinese are led. If they have confidence in their leaders they will face anything without fear of death. If Admiral Ting led them they would prove themselves a splendid force. Some of the Chinese officers, particularly those trained in America, are bright examples of everything that they should be. The lack of spirit is a great drawback to the Chinese troops. Regarding the Chinese forts they are well to the front. Wei-Hai-Wei is impregnable, and no Japanese will dare approach it." Captain Lang said that his opinions were based upon the condition of things in 1890, when he left China. He feared that discipline would become lax since the European influence was withdrawn. "There is now," he said, "no high European officer in the navy although there are one or two English officers at Wei-Hai-Wei. If the powers allow a war a l'outrance Japan must eventually be utterly crushed."

London, Aug. 7.—The Standard maintains that despite every excuse it is deducible from later reports that there is nothing that exonerates Japan from the charge of brutality and barbarism towards the Chinese. Not long ago, it says, an incident like the Kow Shung affair would have immediately brought a British squadron to Tokio. The Standard proposes that Russia and England jointly demand that both China and Japan withdraw their forces from Corea forthwith and entrust the government of the peninsula to an international conference. "Failing this," the Standard adds, "we must anticipate a very anxious period, and no time should be lost in increasing the British squadron in the far east."

Watertown, N. Y., Aug. 7.—Ex-Secretary of State John W. Foster, who is sojourning at Henderson Harbor, near here, with his family, and who has recently returned from China, Corea and Japan, speaking of the degradation of Li Hung Chang implied in depriving him of the yellow coat, said: "When I was in China last, Li Hung Chang was the recognized ruling spirit of the Chinese government in all foreign matters. It must have been a very great neglect to bring about as severe a measure as that reported in the papers. It probably indicates a change of personnel in the administration of the Chinese empire. He is past 70 years of age and two or three years ago was in poor health. It may be that the Chinese emperor, entering as he is upon a great foreign war, has been recommended by his councillors to put the management of foreign affairs in the hands of younger men, better adapted to bear the strain of the great burden which is certain to rest upon them while the great struggle continues." Being asked if the loss of the yellow coat is irreparable, General Foster, whose long diplomatic service and familiarity with the customs of foreign courts, aside from his service as secretary of state, give special weight to his opinions, said: "I think it signifies more than temporary displeasure. It is rather an indication of loss of the confidence of the government in him as the administrative head of affairs."

Washington, Aug. 7.—Advices received here from an authentic European source state that Russia is planning to grab one of the most desirable ports of Corea and establish a sovereignty over it. The reason for Russia's move is her desire for a southern port which will be open to commerce throughout the year. There is absolutely no doubt that England is watching every move of Russia and that both nations are making rapid preparations for war. The old-time hostility between the two nations is so well known that the news of an open rupture between the two countries would create but little surprise, although it is not generally believed that the present Corean trouble will involve any of the European powers. The absence of reliable information, however, from the seat of war causes more uneasiness in London and St. Petersburg than is generally admitted, and it is within the realm of probability that Russia is seriously contemplating showing her hand in the Corean embroglio by seizing a Corean seaport. Such an overt act would almost instantly precipitate a conflict that would probably embrace the greater part of Europe.

CABLE NEWS.

Grand Duchess Xenia and Grand Duke Alexander Michaelovitch Married.

St. Petersburg, Aug. 7.—Grand Duchess Xenia, daughter of the czar, was married yesterday to Grand Duke Alexander Michaelovitch in the imperial palace at Peterhof. The ceremony was a brilliant one. The Metropolitan Palladius officiated. The bride and bridegroom were led by the czar to their places on the platform in the centre of the chapel. The bride wore a scarlet mantle lined with ermine over her bridal dress. A salute of one hundred guns was fired at the conclusion of the ceremony and great enthusiasm was displayed by the great crowds that had gathered outside the palace. Among the guests were the queen of Greece, the crown prince of Denmark, the Princess of Wales and her daughters, the Russian ministers and the foreign diplomatists. There was a wedding banquet in the evening, followed by a concert and fireworks.

London, Aug. 7.—A meeting of the Liberal-Unionist leaders to-day, to discuss Mr. Russell's proposed amendment to the evicted tenants' bill, was without definite result. The effort to bring about a compromise was vainly renewed prior to and during the debate on the bill in the house of commons this evening. The Tory landlord members declared that no compromise would overcome their opposition to the bill. Eventually the bill passed the third reading by a vote of 190 to 167.

The Central News has received a dispatch from Rome saying that Enrico Lucchesi, the anarchist who was arrested in Corsica three weeks ago, charged with having murdered Editor Giuseppe Bandi in Leghorn on July 1, confessed his guilt.

The Berlin correspondent of the Central News says that Prince Bismarck is now almost free from the facial neuralgia from which he was suffering a while ago, and that he sleeps soundly and has an excellent appetite. The princess also is better, though she is still confined to bed.

A dispatch to the Central News from Buda Pesth says: The Hungarian government has formulated a bill to enforce the colonizing of nomadic gipsies, of whom there are 270,000 in Hungary. The bill provides that six families of gipsies shall be located in each community.

Copenhagen, Aug. 7.—The resignation of J. B. Estrup as president of the council and minister of finance has been accepted. His successor as prime minister is Baron Reedtz-Thott, the present minister of foreign affairs. In the recently constructed cabinet Baron Reedtz-Thott retains the ministry of foreign affairs; Admiral N. F. Haven the ministry of marine; J. M. Ve. Nellemann the ministry of justice; H. P. Ingerslove, the ministry of public works, and M. Hoerring the ministry of the interior. The new members are M. Luttinhan, minister of finance; General Thompson, minister of war, and M. Baranfleth, minister of public instruction and ecclesiastics.

NEWFOUNDLAND AFFAIRS.

The New Government Has a Narrow Escape from Defeat.

St. Johns' Nfld., Aug. 7.—Premier Goodridge's government was nearly wrecked to-day by the bill indemnifying the governor for the illegal collection of revenues during the past two months, which was taken up by the legislature for consideration and passage. The Whitewaytes made a combine with the mugwumps, obtained a majority of one over the government and refused to pass the bill unless a dissolution of parliament was granted, thus rendering all disqualified members of the legislature eligible to again contest for their seats in parliament. The government obtained a temporary adjournment and communicated with an absent councillor, who replied by tendering his resignation to take effect upon receipt of the message. The government at once appointed Mr. Fenelon, formerly colonial secretary, to fill the vacancy, and a member was secured out of the house notwithstanding the fact that the member's friends at first persuaded him not to vote. A division was then forced by the government, and the bill was carried through all its stages by a majority of one. The governor will assent to the passage of the measure to-morrow, and one of the ablest moves in securing the passage of a bill yet recorded here will be consummated. Mr. Woodford, Whitewaytite member for Harbor Main, has gone over to the government, and will receive the financial secretaryship in return for his support. Mr. Furlong has resigned as chairman of the board of works, to accept the speakership of the assembly. He will be succeeded in the board of works by Mr. Duder, the present financial secretary.

QUEBEC'S BIG FAMILIES.

Too Many Applicants for the Hundred Acre Bounty.

Prizes for fecundity have cost the government of the province of Quebec something like 180,000 acres of rich agricultural land during the last four years. These bounties for large families are regulated by law, and are paid at the rate of a hundred acres of government land for every family of twelve or more children. The act governing the payment of these bounties is entitled, "An act to confer a privilege upon fathers of families who have twelve children living." Up to this date 1742 fathers of twelve or more children living have complied with the conditions of this act, and received the state reward of a hundred acres of land each. Not all of them, however, are satisfied with the amount of the bounty. Instances of families of twenty or more children are not rare, and the fathers of these usually look for a reward superior, proportionately, to that accorded those who have barely earned the coveted distinction of coming within the provisions of the act. Hon. G. Ouimet, superintendent of education, is the twenty-sixth child of the same father and mother, and there is a letter on record in the crown lands department from a Paul Belanger, of River du Loup, who fought against the rebels of 1837-38, and who says that desiring to serve his country alike in peace and in war, he has given her as many children as he killed enemies of his country. He stops to inquire, therefore, whether proportionate rewards will be given to those who, like himself, have 36 children, in the shape of three such lots of land as are given those who have twelve children only. Otherwise he thinks that a full measure of justice and encouragement will not have been accorded. The number of hundred acre lots so far awarded to fathers of large families by no means represents the number of such families in the province. Applications are now pouring in for the bounty at the rate of some thirty a month. Some of the applicants have only recently fulfilled the conditions of the act, and count the twelfth of their children as only a few days old. Others, again, have considerably exceeded the patriarchal number of their family, and have perhaps been waiting to see whether it would prove fashionable to apply for the proffered bounty.

COMPENSATION FOR SEALERS.

Gresham Makes a Move Towards Settling Sealers' Claims.

Washington, D. C., Aug. 7.—Some time since Secretary Gresham submitted to the senate committee on foreign relations a proposition to settle the damage to Canadian sealers which were seized by the United States vessels previous to the Paris arbitration. The amount of damage will have to be ascertained, and the question involved is as to the manner in which this is to be accomplished. It is probable that a board will be created which will be composed of commissioners of the United States and Great Britain, although it is probable that certain officials already in the diplomatic service of both countries will be designated to act. Each person claiming damages by reason of seizure will be allowed to present his claim and submit evidence in support of it. The United States government, through the department of justice, will lay before the board any evidence tending to show the defects of the claims, and take such steps as are necessary to prevent fraudulent claims from being assessed against the government. It is expected that the senate committee will report the details of the proposition of settlement, and it is probable it will be adopted before the end of the session.

TO ETXERMINATE ANARCHISTS.

Secretary Carlisle Recommends an Anti-Anarchist Bill to Congress.

Washington, Aug. 7.—The anti-anarchist bill passed by the senate to-day was sent to congress with a favorable recommendation by Secretary Carlisle, and was a substitute for the Stone bill, passed by the house. The first section provides that no alien anarchist shall be permitted to land at any port in the United States, but this provision shall not be construed to include political refugees. The bill provides for hearings in the cases of the landing of reported anarchists, and, in case the charges be proved, the secretary is authorized to send the accused back to the country from whence he came.

The bill also provides for the exportation of any unnaturalized foreign-born person who, upon trial in any court, shall appear to the judge to be an anarchist. It also provides a system of inspection of other immigrants, by authorizing the secretary of the treasury to appoint at such ports as he may deem necessary an immigrant inspector, whose duty it shall be to inspect passengers embarking for the United States and to erase from the manifest the name of any immigrant who he is satisfied should not be permitted to land in this country, and he is also to forbid any person belonging to the excluded class to travel in the first or second cabin or in any portion of the vessel. He is also to give information as to any suspected persons, and to admonish the master of the vessel of the character of any immigrant, if objectionable, and the master is to be required to pay a penalty of $100 in case he transports such a person after receiving the warning. It provides that the fact that the immigrant may have given notice of intention to become a citizen shall not constitute a bar to proceedings against him.

NO. 234.

A BY-LAW

To Amend the Revenue By-law, 1893.

Be it enacted by the Council of the Corporation of the City of Victoria as follows:

1. Section 7 of the Revenue By-Law, 1893, is hereby repealed and the following section is hereby substituted therefor and shall form part of the said by-law.

7. The procedure for enforcing sections 2 and 3 of this by-law and the schedule referred to therein shall be those prescribed by the Municipal Act, 1892. In all other cases every person who is guilty of an infraction of any of the provisions of this by-law shall, upon conviction thereof in a summary manner before the police magistrate or any two justices of the peace having jurisdiction in the said city, be liable for every such offence, and shall forfeit and pay a penalty not exceeding fifty dollars and costs, and if such penalty and costs be not paid either immediately or within such period as such police magistrate or justices may appoint, the same may be levied by distress and sale of the goods and chattels of the offender, and in default of sufficient distress the offender may be imprisoned with or without hard labor for any term not exceeding three calendar months unless such costs and penalty be sooner paid."

This by-law may be cited as "the "Revenue By-Law Amendment By-Law, 1894."

DR. A. C. WEST
Surgeon Dentist,
Office Rooms: 1, 2 & 3, Adelphi Block Corner Yates and Government Sts., Victoria, B.C.
Dr. West calls particular attention to the Chase Metallic Roof Plate, which is the best denture ever devised and for which he is the sole licensee for B. C. Its points of superiority are—lightness, strength, conductivity, and perfect adaptation, thus giving it all the advantages of an all gold plate with none of its disadvantages, and at a price within the reach of all. To examine a specimen plate will convince at once the truth of the above assertions. All dental work performed carefully and skilfully. Teeth extracted absolutely without pain by the use of a local anaesthetic. my17-d-w

A SIGN OF FEAR.

Some reports from Ottawa represent A. W. Ross as stating that he practically had his appointment to the lieutenant-governorship of Manitoba in his pocket. On the other hand, Mr. Boyd, the member for Marquette, says the present incumbent of the office will be allowed to hold it for some time longer, and he appears to hint that no change will be made until the general election is at hand. It is hard to judge whose version is correct, but the circumstances indicate that however much the government would like to appoint Mr. Ross they will not be likely to open the constituency of Lisgar. They would not care to face a contest in any Manitoba constituency at present, with the possible exception of Provencher. Apropos of the governorship the Winnipeg Free Press says: "Apart from any question of individuals the lieutenant-governorship should not be made a political plaything, or a worm to be dangled before uncertain political fish. When his term is up he should be relieved. Or if the government can properly reappoint him for a second term and wishes to avoid choosing between others he should have the second term, and then go. But the government has been so weakened and is so fearful of every shadow, that it would juggle with a message from Heaven, if the faintest prospect was offered of gaining a little party strength by it. The probability is that no lieutenant-governor will be appointed before the general elections, and that in the event of the ministry being defeated, some one or other of the cabinet ministers will suddenly discover that all his life long he has taken the keenest interest in Manitoba. If Mr. Ross is in a position to frighten the ministry he has a fair chance of the appointment, otherwise he will probably be treated with small consideration, seeing that he can no longer serve them." It is surely significant that a government which professes so much anxiety to serve the west is afraid to take a straight course that would result in a test of its popularity among the western people.

WHAT ENGLISH PAPERS SAY.

The London Times in its colonial article reviews the preferential trade proposal, and the most favorable view it can take of the scheme is thus expressed: "It may be said that these arguments and others which might be brought forward on the same side are not unanswerable. We have no wish to assume that they are final. For the present, however, they appear to carry with them so much force that it would seem more practical to look for the desired strengthening of commercial bonds within the empire in directions other than those suggested by a direct imposition of preferential rates." The Spectator speaks with more emphasis, saying in regard to the Ottawa conference resolution: "This is either a very dangerous or a very foolish resolution. We have no objection to the colonies giving specially favorable treatment to our goods, though we should prefer for their own sakes that they should act on the true free trade principle, but we can never return the favor in kind and protect them in our markets against foreign competition. Unless we are prepared to bring ourselves to the condition which America has reached through McKinleyism, we must stick to our principle that whoever has goods to sell may come freely and sell them here." If Sir George Grey is correct in his conclusion that the colonies are not at liberty to discriminate in duties in favor of Great Britain, then the Spectator's grounds of objection are so far increased. At all events it is plain that there is no possible chance of the mother country imposing duties on foreign goods for the benefit of the colonies, therefore the preferential trade scheme might as well be dismissed as a chimera. Our best trade plan is to follow as closely as we can in the footsteps of the mother country, not forgetting that the lowering of most of our duties would practically mean discrimination in her favor.

EDITORIAL NOTES.

Nelson Tribune:—It is common rumor that not a single man was at work on a road or a trail in South Kootenay 24 hours after the polls were closed. Surely the needed roads and trails could not have been completed so soon; or were the men at work laid off because they refused to be voted as dumb driven cattle? It is also common rumor that every man who draws pay hereafter for work on roads or trails must first prove that he is branded "G. O. B." Good men will not be branded, and it is unwise to employ any but good men—even on government roads and trails.

"There can be no question," says the Toronto Mail, "that immigration into Canada is not what it should be. The policy pursued, as regards filling up the Northwest, was not the best that could have been devised. Too much land was given to companies and too little left for free distribution. The complaints with reference to the tariff and freight rates have had a very bad effect. It looks as if in the matter of colonization we are not half as enterprising or persistent as the circumstances require. If a special attempt is not made now by the federal authorities to bring population to it, what is the use of tariff reduction or the large expenditures we are incurring there?" The Northwest would probably bring population to itself if it were given freedom from the artificial restraints of high duties and high freight rates. The same may be said of British Columbia.

The United States is a country which has for many years enjoyed, and still enjoys, a high degree of "protection." Of this country the Colonist presents the following picture by way of argument in favor of high tariffs: "During twelve months the United States import trade fell off by $211,000,000; and railway systems, with a capitalization of $175,000,000, and controlling 29,000 miles of track went into bankruptcy in 1893, while during the last six months 23 companies owning three thousand miles of road and capitalized at $200,000,000, went into the hands of receivers. Over 150 banks suspended payment during 1893, and the national revenue fell $71,500,000 short of the expenditure." We are much afraid our worthy neighbor has drawn the wrong moral from this statement of facts.

FREE TRADE AND THE UNION JACK.

To the Editor: The moment the lamentable misconception regarding the true functions and usages of money is swept away it will be seen at a glance that all trade is barter, and that as far as purely commercial transactions are concerned imports are paid for by exports. Of course, in the case of national indemnities, subsidies, loans, interest on bonds and foreign investments, these are paid for by the export of goods on which there is no return in imports. One country simply exchanges what it can produce easily and cheaply and has a surplus of for the goods of another country which it finds it difficult to produce and which it desires to obtain. We do not pay the foreigner in money for what we purchase from him; we pay him in goods of our own production. We exchange what we can produce better and cheaper than he can. Now there is no one who in exchanging his productions for the productions of another would be so foolish as to think that the more he gave and the less he got in return would be a profitable business. Yet this is exactly the aim of protection. The feverish desire to export is intense in all protected countries, and, strange to say, there exists at the same time a vigorous antipathy to import. The two courses are clearly incompatible, because for every hundred dollars worth of goods or million dollars worth of goods we prevent from coming into Canada, it follows by the inexorable law of logical sequence that we must prevent the same value in commodities from going out, thus enormously restricting foreign trade. To afford every facility for sending wealth out of a country and placing every obstacle in the way of fetching it in is plainly a losing game, yet it is exactly what protection accomplishes. An excess of exports over imports is a certain proclamation of a country's indebtedness. Yet so widespread is the belief that the value of the excess is received back by the exporting country in specie that it is absolutely necessary that the utter impossibility of such a course should be made plain.

"When Rome was mistress of the world, Sicily, Spain, Africa, Egypt and Britain exported to Italy far more than they imported from Italy. But so far from this indicating their enrichment it indicated their impoverishment. It meant that the wealth produced in the provinces was being drained to Rome in taxes, tribute and rent for which no return was made."

The enormous indemnity exacted by Germany from France in 1871 was almost wholly paid, indirectly and directly, in goods, and the French exports ran away in excess of French imports during the period France was using her energies in paying the obligation. The London Economist of March 15th, 1873, publishes a statement showing a payment France had just made to Germany of £94,600,00 and the various items which such payment consisted of were as follows:

French gold and silver.....	£ 6,400,000
Bank notes, French and German	8,200,000
Bills of exchange on Belgium and Holland	16,000,000
Bills of exchange on Germany..	40,000,000
Bills of exchange on England....	24,000,000
	£94,600,000

The Economist adds that the £80,000,000 on Holland, Germany and England represents the excess of commodities which France has furnished in order to meet the ransom, and that, meanwhile, the bullion in the Bank of France has been maintained at £30,000,000.' Thus the circulation requirements of France were not interfered with by this enormous payment, and even the £6,000,000 of gold and silver paid were probably the produce of the hoards that had been accumulating in the old stockings of a frugal and industrious French peasantry, and that had not been in circulation. It is necessary to dwell strongly upon this topic because it is a very common notion that balances due from one nation to another are paid in specie, and it is this radical error chiefly that leads protectionists to aim at selling as largely as possible and buying as sparingly as possible in the delusive hope of getting the difference in specie. The futility of such an aim is at once apparent when it is clearly seen that specie is not the medium through which the balance is maintained between exports and imports, or through which heavy payments, from whatever cause, are made by one country to another. As I have previously pointed out, the actual course of events daily transpiring under our own eyes are a most convincing proof that money is not used in the settlement of international accounts. Look at the United States with an excess of exports for 1894-4 of over $215,000,000, and during the same period gold flowed out of the States in greater quantities than ever it did before. Now, if the excess of exports were received in specie, the United States would have imported specie instead of sending it away. Surely this is conclusive. Then let me quote England's situation again. That solid little island imports over £150,000,000 in excess of exports and at the same time was importing bullion to meet the wants of the increasing circulation, wear and tear, etc. All that is needed is the exercise of a little ordinary common sense and logic to become convinced of the follies and fallacies of protection.

NEWS OF THE STATES.

Roslyn Miners Unanimously Decide to Return to Work.

Roslyn, Wash., Aug. 8.—At a meeting of the late mine drivers of the Northern Pacific Coal company it was decided by an almost unanimous vote to go back to work.

La Salle, Ills., Aug. 8.—In an attempt to arrest a coal miner named Shurmann for taking a prominent part in rioting at Union Shaft recently the deputy was fatally stabbed and Shurmann's father was killed. Shurmann's friends subsequently attempted to mob the deputy. The excitement is intense. The wounded deputy is now in a hotel which is surrounded by militia.

Philadelphia, Aug. 8.—William Evans to-day shot and killed Louis Hecht, who was living with Evans' wife on Montgomery avenue. Evans also shot and seriously wounded his wife and then suicided.

Wall Street, Aug. 8.—Stocks opened irregular. Sugar declined 1 3-8.

Little Rock, Ark., Aug. 8.—James T. Barr, one of the best known business men of Arkansas, killed himself yesterday. He had been in bad health for some time and left a note saying he preferred death to the suffering he was undergoing. He took poison. He leaves a large fortune.

Lexington, Ky., Aug. 8.—The Owens and Breckenridge forces will come together to-day and one or the other will capture the chairmanship of the Fayette county committee. Colonel Breckenridge returned to Washington yesterday for the last time before the holding of the primaries. His friends have advised him to bring Mrs. Breckenridge back with him, and remain until the nomination is made. This will be Mrs. Breckenridge's first visit to Kentucky since the trial, and it is supposed she will visit her brother, Dr. Scott, in Louisville.

Patterson, N. J., Aug. 8.—Seven anarchists who took a prominent part in the recent strike of the silk weavers here, were sentenced to-day to terms of imprisonment ranging from three months to five years. The latter sentence was passed on Anarchist Doebeler, who was convicted of placing a dynamite bomb on the lawn at the residence of a silk manufacturer.

Atlanta City, N. J., Aug. 8.—A band of sixty Coxyites under the command of Carl Brown has arrived here.

Washington, Aug. 8.—Among the bills introduced in the senate to-day was one to prevent professional lobbying and to make it punishable by fine and imprisonment. The senate agreed to the conference report on the Indian appropriation bill and passed a bill extending the time for the completion of the bridge over the Columbia at Vancouver, Wash.

Spring Valley, Ills., Aug. 8.—The miners voted yesterday to accept the Columbus scale conditionally. The manager of the mine refused to receive a committee to discuss the conditions, at which the miners became angry and say they will not deal further with the manager.

Armonia, I. T., Aug. 8.—An election for governor is being held to-day throughout the Chickasaw nation. It was originally fixed for Monday last, but at the last moment a proclamation was issued changing the date until to-day. For more than a month the nation has been virtually without a governor. The convention of the legislature on July 13 proved an utter failure, the members refusing to respect the authority of acting Governor McClure, who had twice attempted to get the body together. Only a few Chickasaws were present and these were directly interested in the extension of the Choctaw nation railroad through the territory. All further action towards securing a governor pro tem was then abandoned. The candidates who are being voted for to-day are P. S. Moseley, independent; R. L. Boyd, on the "Allotment in Severalty ticket"; and ex-Governor William Byrd of the "Pull Back ticket." The friends of the latter are sanguine of success.

Gleanings of City and Provincial News in Condensed Form.

—Fine fishing rods and tackle at Fox's, 78 Government street.

—Carter House billiard and pool parlors, Duck Building, Broad street. tf.

—His Lordship Bishop Perrin has just confirmed two Chinese converts who were prepared by Rev. E. Lipscomb. The ceremony took place in Christ Church Cathedral.

—We are just in the midst of the "friut season," and Weilers are selling their preserve jars, etc., in large quantities, and why? They are Mason's and the best you can get.

—Victoria Lodge No. 17, K. of P., will hold a special meeting for the consideration of the by-laws this evening. It is understood that the proposed moonlight excursion will also be discussed and some committees appointed.

—Herr Anton Zilm, teacher of the violin at the Conservatory of Music and leader of the orchestra at the Victoria theatre, will not remain in Portland, where he now is, but will in about a month return and resume his position. He will on his return bring his family with him.

—The funeral of the late William Charles Douglas Clarke will be held from the residence of his father, Captain W. R. Clarke, Bay street, at 9 o'clock to-morrow morning, and later from St. Andrew's R. C. cathedral. Deceased was 24 years of age and a native of Victoria. He had been in poor health for a long time.

—Andrew Kelly, son of S. H. Kelly, who left here on the now famous steam schooner F. H. Worlock nearly two years ago, is back in the city. He re-shipped for the season on the schooner Beatrice at Yokohama and returned on that vessel to Vancouver. He had an interesting time along the Siberian coast and later in Japan.

—The Roman Catholic priests of the diocese of Vancouver Island, who have been here attending the retreat, are leaving for their respective homes. One of the pleasant features of the gathering was the taking of an excellent group photograph of the party. Bishop Lemmens sits in the centre and his clergymen are grouped around him. The picture was taken by Jones, and is a very creditable one. Rev. Father Stuhl, who preached the retreat, is a Redemptorist and his home is at Seattle.

—All citizens interested in the success of the exhibition to be given by the agricultural association have been invited by Mayor Teague to meet in the city hall this evening. Those who have the management of the fair in hand desire to lay the work up to date before the people. Discussion will be invited and an endeavor made to come into harmonious relations with the general public. A number of suggestions now pending before the board of directors will also be made public before final action.

—The Examiner in its mention of the recent trip of the Stanford baseball team has the following to say of Victoria: "In Victoria, B. C., what the players term the most interesting and picturesque game of the tour was played with a team composed of several ex-Americans and Englishmen who understood the rudiments of baseball, on the Beacon Hill lacrosse and cricket grounds, undoubtedly the largest and finest athletic field in that section. The event was advertised as an international contest and the elite of the province attended. The grand stands were decorated with British and American buntings, and on the fair and foul lines were placed the British and American flags. To give the contest tone and official sanction the Lieutenant-Governor of the province acted as master of ceremonies. His Excellency introduced each team in a neat speech to the spectators and proclaimed the event as an international contest of skill. Stanford placed a weak team in the field, expecting an easy victory. To the surprise of all the game was close and exciting, Stanford only winning in the ninth inning by a score of 8 to 7.

—Contrary to an opinion that has been general, Rev. Father Althoff, now in the city, will very likely not be the vicar-apostolic of Alaska when the territory is raised to a dignity coequal with a diocese in the Catholic church, and perhaps the strongest reason is that he would decline it. People in and out of the church knowing anything upon the subject have all along thought that Father Althoff would surely be appointed. He is personally a very popular man, and his advancement would be generally pleasing. However, he is modest, and then the new vicar-apostolic will very likely have to face the rigors of life on the Yukon, and he will have to be there to effectively accomplish the work before him. It is said by those in a position to know that all the work in Alaska will be given over to the Jesuits and that the vicar-apostolic will be one of that order. There are already nine Jesuit priests and five Jesuit brothers at work in Alaska. The method of choosing the new leader is novel. Each of the bishops of the province (which is that of Oregon) submits the name of three priests whom he regards as suitable, and the final choice is made in Rome. The names have been submitted, and action at Rome is awaited.

—Family scales at McLennan & McFeely's.

—The public schools of the city will reopen on Monday morning.

—Guaranteed razors and outfits at Fox's, 78 Government street.

—John Smith, plain drunk, thought he could find ten days better than ten dollars, and it was so ordered.

—A meeting of the board of school trustees will be held in the police chamber, city hall, to-morrow evening.

—You can combine pleasure with labor by the use of the "Acme" or "Peerless" clothes wringers. Weiler Bros. have them.

—Special facilities for making blank books and doing extra calf and other superior binding at R. T. Williams, 28 Broad street.

—James Meyers, charged with the theft of a number of small articles from Robert Jamieson, came up in the police court this morning. He pleaded guilty to the charge, and was given two months.

—The B. C. B. G. A. band will present a carefully prepared programme out at Oak Bay this evening. As a result of steady practice of late the band is now rendering some very excellent music.

—The Great Northern Railway company intend to retain both C. A. Rattray and M. Stevens as agents in this city. The latter will attend to the freight business and Mr. Rattray to the passenger business.

—No. 1 fire hall is now in excellent shape, the new block pavement being pronounced first-class. The chemical has been returned to its old quarters in No. 1 and the engine removed from the market hall to No. 2 on Yates street.

—Careless domestics and crossed wires are given as the causes leading to the scamper of the fire brigade out to the residence of Hon. D. W. Higgins about 11 o'clock last night. The blaze was quickly subdued, the damage being merely nominal.

—The coroner's jury appointed to inquire into the circumstances of the drowning of George Thompson brought in an open verdict last night. The deceased has several near relatives here, among them two sisters and a niece. The funeral takes place at 2.30 to-morrow afternoon from the Masonic temple.

—The various young people's societies of Victoria will hold a combination meeting in the Centennial Methodist church, Gorge road, this evening. The literary and musical programme will begin at 8 o'clock and will include papers by F. Davey on "Hope of the Future" and Mrs. Watt on "After Commencement What?" A general invitation is extended to the public.

—Lord and Lady Randolph Churchill, Private Secretary Keith, and suite, arrived from the east last evening and registered at the Driard. They will remain here until Saturday, when they leave for San Francisco, spending a fortnight in California. They will return here on the 26th, leaving on the following day by the Empress of Japan for the Orient.

—Chief Deasy had a very narrow escape from serious accident on the way to the fire last night. He was going up Yates street at a long jump when the harness broke. He succeeded in stopping the excited horse before any damage was done. Driver John McNeill, of the chemical, also had a close call. When he opened a drum of sulphuric acid to charge the retort a portion of the acid splashed into his face, inflicting a painful burn and closing the right eye temporarily.

—Mr. and Mrs. W. L. Nicol and family left here on Sunday for Victoria, B. C., where they will in future reside. A large number of friends were at the depot to see their departure and to wish them happiness and prosperity in their new home. Mr. Nicol was one of the pioneer residents of this town, having come in with the first of them in 1883. During his residence here he has engaged very successfully in sheep ranching, giving that industry his whole attention during the past few years. After seeing his family comfortably settled in Victoria, Mr. Nicol will return here to close out his interests in the sheep ranch at Walsh.—The Medicine Hat News.

—The garden fete at Cloverdale yesterday under the auspices of St. Luke's church congregation was a pronounced success. A number of very attractive features had been prepared for the amusement and instruction of the many visitors. Among these the "museum" easily ranked first, while the endeavor to capture a thoroughbred pig furnished a number of hearty laughs. The ladies had provided an especially attractive display of plain and fancy work, which was artistically arranged in the various booths and found ready sale. A musical programme was rendered by the Bantley family during the afternoon. Among the distinguished guests were noticed His Honor the Lt.-Governor and Mrs. Dewdney, Sir Joseph and Lady Trutch and Rt. Rev. Bishop Perrin and Miss Perrin.

—The Victoria & Sidney railway will run two trains to-morrow at 10 a.m. and 2 p.m., taking the children and friends of the St. Barnabas and St. Mark's Sunday schools for their annual summer treat, returning at 7 p.m.

—The Umatilla sailed this morning from san Francisco with the following cabin passengers for Victoria: Miss H. Sevier, A. Shields, Wm. Barry, Miss L. E. Aldrich, Miss E. Gallagher, Captain Keene, George V. Frazier, W. H. C. Lee, H. E. Evanhoulen and wife and James Leishman.

—The DeVoe family had another of their family rows in the police court this morning. Frank DeVoe, charged with using insulting language toward Mrs. Mary DeVoe, flatly denied the same, and the case was dismissed amidst a passionate appeal from Mrs. DeVoe for protection and threats of suicide if the same was not forthcoming. The combined efforts of the police were necessary to quiet the excited woman. The court gave DeVoe a solemn warning to let the woman alone in future.

PRIZES FOR POULTRY.

Special Premiums Offered at the B. C. Agricultural Exhibition.

The directors of the B. C. Agricultural Society have decided this year to extend the prize list to poultry of all kinds. In addition to the rewards in the prize list special prizes will be awarded. THIS SEASON'S SEALSKINS.

Reports of Damaged Condition Are Exaggerated.

Collector of Customs A. R. Milne states that the reports of the damaged condition of this season's catch of sealskins is much exaggerated. "They are," said he, "in much the same condition as last year. Of course it must be remembered that in the warmer climate of Japan greater care is necessary to preserve the skins from damage, but in most cases this has been done and the skins have arrived here in good condition. The catch will be but little larger than that of last year, and much the same prices will probably rule. The vessels will all be coming home soon. So far as I have heard, only three of the Japan fleet will come in east of the line. Those will proceed to Attu and have their arms sealed up. Reports from the north have been to the effect that the American officers have tried to get along with as little trouble with the fleet as possible. There has been no disposition to press technical points. Probably next year they will be more strict. I warned all of the captains to be very careful and not, as usual, land anywhere, but to go to Unalaska. I think most of them have done this. I should not be surprised if the present investigations on the part of the American government should lead to an absolutely closed period for a few years. There would be no great difficulty in getting the consent of interested nations, and it would give the herds time to recover from the slaughter which the company have inflicted upon them."

Law Intelligence.

Before the full court to-day the appeal in the Hudson's Bay company v. Kearns and Rowlings is being heard. The defendant Kearns, being indebted to the plaintiffs, deposited with them by way of equitable mortgage her title deeds and then afterwards sold to Rowlings, who registered his deed as a charge. At the trial before Mr. Justice Walkem the decision went off on a question of registration, and judgment was given in favor of Rowlings. Now the plaintiffs appeal, and the argument is on the question of whether or not at the trial Rowlings should have proved consideration for his deed.

C. E. Pooley, Q. C., for the appeal and A. E. McPhillips for the respondent.

KOOTENAY CROPPINGS

Nuggets of News Cleaned Up From the District Papers.

NELSON.

Nelson Tribune.

The supporters of Mr. Buchanan resident at Kaslo have organized a club, with the avowed object of controlling the distribution of government "pap" and patronage in Southern Kootenay. They do not propose to give even Duncan City and Rykert's any say in the matter, yet both places were as solid for the government as was Kaslo.

A resident of New Denver who has been looking on himself as a pauper ever since the crash in the States last summer has recently realized on property in Washington for the respectable sum of $26,000. He knows what to do with it.

Jim Burr recently made a trip through the country drained by the head waters of Rover creek, a creek that empties into Kootenay river about twelve miles south of Nelson. He reports that the fallen timber made it impossible to travel with pack animals; that there is no scarcity of game; that if there is mineral he couldn't find it. He made one location, but did not think enough of it to record it.

Men have been put to work on the Blue Bell mine, opposite Ainsworth, and the smelter company has the sampling works building well under way at Pilot Bay.

A fire that spread from a small clearing made by a rancher on the east side of Kootenay lake destroyed the buildings at the Tam O'Shanter mine, two miles up the lake from the Blue Bell mine.

About one hundred tons of Silver King ore are stored at the company's ore house at Nelson awaiting shipment to Denver. Wilson's four horse teams bring down about eight tons a day.

Miss Maxwell and Miss Imandt, of Dundee, Scotland, were at Nelson on Wednesday. Unfortunately for them, they left all their personal effects on the steamer Columbia, which was destroyed by fire on Thursday morning.

The reported discovery near Moyes lake, in East Kootenay, of a large and well defined ledge carrying galena ore is verified. The ledge can be traced for several claims, each showing clean ore on the surface. The ledge is in slate, and the vein matter is said to average about 60 ounces in silver and 65 per cent. lead. The locations are crossed by the old Wild Horse trail from Rykert's.

From the number at work, the placer ground on Hall creek must be paying fair wages to the man. At the canyon Eugene Montreuil and his two partners have dammed the creek and utilize water power to work their ground. The gravel is hoisted to the sluice boxes by a Chinese pump; the small boulders are carried to the waste dump in cars, and the heavy boulders are yanked out of the way by a windlass. All this is done by power developed by an overshot wheel. The scene of operations is less than a mile from Hall creek, siding on the Nelson & Fort Sheppard railway, and about eleven miles from Nelson.

R. Marpole, superintendent of the Pacific division of the Canadian Pacific railway, was in New Denver the other day, and running up against an old acquaintance who had done considerable work as a contractor on the main line, very naturally asked him what he was doing and how he was getting along. The old acquaintance is considerable of a "josher," and he answered, "I don't have to do anything; I built eight miles of the Nakusp & Slocan railway." R. M. treated the house.

In tabulating the votes polled at the election, the Victoria Colonist has the supreme gall to count all the votes polled in South Kootenay as having been cast for the government. It has also the gall to count Mr. Hume as a government member. The Colonist and Premier Davie are good running mates. Both without hesitation make statements that do not conform to the truth.

Efforts are being made to infuse life into the Nelson & Slocan railway, and it is expected that an engineering party will be placed in the field this month. The company holds a provincial charter, and the proposed route of the road is from Nelson up Grohman creek to Lemon creek and down the creek to Slocan lake, thence along the east shore of Slocan lake to Silverton and New Denver, with branches from the latter place to the mines on Carpenter creek.

The Deadman group, consisting of the Deadman and Wild Goose claims, lying immediately east of the Noble Five group, appear to be the coming bonanza mines of the Slocan district. Until recently these claims were considered only "wildcats," although two veins were known to run through the ground. F. Cutler, in the interests of eastern parties, while searching for mining porperty, happened to have his attention drawn towards this prospective source of wealth. Twelve samples taken yielded an average of 575 ounces of silver per ton besides being high grade in lead. The highest assay was 2800 ounces. The vein is shown up in six different places for 600 feet in length. Four men are engaged in development by running tunnels on the vein.

The Reco group, consisting of the Reco, Texas, New Denver, Clifton and Ephram, 1500 foot square claims, located on the southwest slope of Reco mountain, in Slocan district, and three miles by trail from Carpenter creek at the mouth of Cody, are again coming to the front as producers. Last year these claims were alluded to as "dugout," for the reason that a concern which had them bonded for a large figure threw up the bond when the financial disaster struck the country. The owners, however, had faith in the productiveness of the property, and, although entirely without funds, but aided by Nelson parties, at the beginning of last winter the work of ore extraction was commenced. Over 73 tons of ore averaging 176 ounces silver and 76 per cent. lead were shipped during the past winter, which paid all expenses and a handsome profit besides. During this summer two of the owners with two hired men have been developing the property so as to make shipments the coming winter. The main lead has been traced 5000 feet through the group. The vein is from eleven to twelve feet in width, formation massive slate, bearing northwest and southeast, while the lode trends 27 degrees east of north. Dykes of porphyry run with the formation varying in width from six to two hundred feet. The vein cleaves through these obstructive dykes the same as the general country rock. Development tunnels number two, one 225 feet in length and the other 353 feet. The breast of the former is 117 feet below the surface and the latter 325 feet. Besides the unbroken ore in the slopes there are one thousand tons of carbonates on the dump, which will average 75 ounces silver and considerable galena.

Nelson Miner

Temporary repairs have been made by which the C. P. R. trains are again able to reach the station.

Forest fires are evidently raging in several directions, as the whole atmosphere is a mass of smoke.

Twenty tons of ore were shipped from Trail Creek to Tacoma on the 18th of July and 32 tons on the 25th.

WANETA.

J. F. Warner of Seattle, who has been so long at the Trail Creek mines, came down to-day and reports good work going on at the Josie; the new strike proves up well and Mr. Warner will send some carloads of it to the Tacoma smelter at once.

The new road to the O. K. mine is shut down for want of funds.

One of the most remarkable strikes this season has been made by J. Peterson and G. L. Rice; it is about three miles from Sheep Creek on the Salmon river. When first prospected it yielded rock almost exactly similar to the Trail gold ore, but more work has now been done and it shows a nine foot vein of the most brilliant peacock (Silver King) ore, with slight showings of the Trail ore. It makes a very beautiful specimen but the last samples have not yet been assayed.

Mr. Litchfield has carefully prospected his placer ground at the mouth of the Salmon and is so well satisfied that he goes to-day to Spokane to buy pumping machinery.

NEW DENVER.

At Three Forks a sad accident occurred to a miner named James Forbes, hailing from Oregon, upon whom a half dead tree fell, breaking his legs and ribs and injuring his spine. The poor fellow lingered two days, dying yesterday.

Fires have destroyed the cabins on the Alamo, Queen Bess and Young Dominion claims in the Twin Lake Basin, while the cabins on the Cumberland which caught fire were saved by the energy of the owners. Fire also swept over the Payne and Noble Five group, Stephen Bailey and W. Lettrick having narrow escapes. The losses to claim owners on account of timber burnt is considerable. Until we have a soaking rain there can be no hope of the fires being extinguished.

The railroad is now complete to a point half a mile this side of the head of the lake. Several carloads of freight have already arrived and we are informed on the best authority that regular passenger trains will make connection with the steamers on the Arrow Lakes within a few days. The construction company, until such time as the road is taken over by the C. P. R., will carry ore to Nakusp at the rate of $5 per ton.

A stock company with a capital of $6000 has been organized in town under the title of the New Theatre Company, Ltd. The objects of the company are to erect, furnish and lease a building suitable for the purposes of entertainment.

NAKUSP.

Nakusp Ledge.

A passenger coach will be placed on the N. & S. next week.

Joe Hardy has discovered free milling quartz in the vicinity of Cariboo creek.

The Grotto Stake, located four miles up Cariboo creek, is the name of the first mineral claim recorded in that section. It was staked by J. Haig, A. Sutherland, F. B. Crane and P. Johnson.

The Nakusp Mining Co., Ltd., at a meeting last week appointed J. D. Darraugh manager, and F. G. Farquier, secretary-treasurer. Five men have been put to work by this company and bed rock is expected to be visible in two weeks.

A. S. Farwell had a narrow call from being burned while surveying the Weston claim, near Three Forks. His instruments, placed in a tunnel for safety, were damaged by the heat.

Notwithstanding that the proprietor of this paper owns a placer claim on Cariboo creek, he still has time to attend to small things, and never refuses to take money for subscriptions when it is offered.

J. H. Devlin returned on Sunday with some good-looking gold quartz that he found on a mountain within sight of Nakusp, and about eight miles from Cariboo creek. He located a claim for D. A. McDougald and called it the Highland Laddie, the same name as Mac's placer claim.

Geo. Alexander, a capitalist from Calgary, has applied for 300 inches of water for ground sluicing and other hydraulic mining purposes, to be taken from Mineral creek, about 300 yards above its junction with the Cariboo creek. He has also posted a notice for a lease of five years of ten acres of dry diggings at the junction of Mineral and Cariboo creeks.

One day last week while the steamer W. Hunter, plying on Slocan lake, was within a mile of New Denver, when her galley was discovered to be on fire. A stiff breeze was blowing at the time, and as the fire had gained considerable headway, it looked as though the twenty odd people on her deck were doomed to meet an icy bath. With Three Forks. The engine was slowed down to avoid the draught it caused. Engineer McInnes started the pump and stuck to the throttle although his clothes were on fire several times, and he was almost suffocated by the smoke. Some delay was caused in getting the hose to work. In the meantime Peter Grenelle and others had procured some buckets and checked the fire until the hose was brought into requisition, when the blaze was rapidly quenched and the steamer saved. The people in New Denver had noticed the fire, and several of them started in boats to the assistance of the steamer, but fortunately their services were not required. The officers of the boat deserve great praise for the manner in which they handled themselves during the trying and dangerous ordeal that they passed through. Some of the passengers were panic-stricken and beseeched the captain to be put ashore as they could not swim. Most of them were cool and did all they could to save the first and only steamer on Slocan lake.

WHITE LABOR ONLY.

Jubilee Hospital Directors Decide to Throw Out the Chinese Vegetable Tenders.

All Votes to Become a Matter of Record on Demand—The Usual Business.

At the regular meeting of the board of director of the Jubilee Hospital held last night there were present J. Davies in the chair, and W. M. Chudley, A. Wilson, J. Braden, G. H. Brown, J. S. Yates, F. B. Pemberton, Chas. Hayward, W. H. Ellis, H. D. Helmcken, J. L. Crimp and I. Braverman.

After reading the minutes of the last meeting the board proceeded to consider a communication from Chas. Hayward suggesting an addition to sec. 6 of the by-laws, giving any two directors power to demand the recording of any vote. This was temporarily passed by.

The matron's report was read showing no important changes during the month. The following donations were acknowledged and the thanks of the board returned for the same.

King's Daughters, a blanket, books and papers; Mrs. Vernon, flowers; Mrs. Gillespie, flowers; Mrs. Jas. Anderson, flowers; Badminton club, magazines; Rev. Cannon Padden, cherries.

Mr. Wilson made a verbal report for the commitee for the month and a list of the required articles was placed in their hands with power to act.

The steward's report was to the effect that the supplies were, as a whole satisfactory. The following donations were acknowledged: Mr. Elford, rhubarb; Joshua Davies, vegetables; Messrs. Hall, Ross & Co., broken rice and crubblings for the chickens. Leave of absence for a month was requested by the steward and referred to the committee for the month.

The tenders for vegetables were then taken up for discussion. Mr. Hayward read the tenders, showing that a Chinaman named Ah Me had made the lowest tender, but held that as Campbell & Fraser had made nearly the same tender, some $51 higher, he was of the opinion that the white man should have the contract. Mr. Wilson did not agree with this. His idea was that the lowest tender should be received irrespective of the nationality of those tendering.

Mr. Yates also thought that the lowest tender should be accepted.

Mr. Braden was of the opinion that the white men should have the contract.

Mr. Brown favored the white men. Chinese vegetables were not fit to feed sick people.

After some informal discussion it was resolved to lay the awarding of the contract over for two months.

Mr. Hayward's notice of motion was then taken up and the point was raised as to the required time of notice. The motion was ruled in order, and Mr. Ellis seconded Mr. Hayward's motion. A considerable amount of discussion followed, turning on the legal power of the board to act at once.

Pending a looking up of records, the vegetable contract was again turned to. Mr. Ellis favored giving the contract to the white men. Mr. Chudley thought the board was bound in honor to accept the lowest tender.

Mr. Hayward's motion to record all votes in demand then passed.

The vegetable tenders were returned to again. Messrs. Wilson and Yates favored giving the contract to Ah Me. Messrs. Ellis and Hayward took the opposite opinion, and each gave their reason in lengthy addresses to the board. The discussion became general and some rather bitter personalities were finally checked by the chair.

It was at last resolved to call for new tenders for vegetables, white labor only.

A number of revised "Rules for Nurses" were ordered printed.

A special committee consisting of Messrs. Helmcken, Ellis and Yates was appointed to revise the by-laws.

The monthly report was to the effect that everything is in good order with the exception of some minor needed repairs. Received and adopted.

The treasurer's report was then read. The balance in hand was some $5,000. Mr. Hayward was of the opinion that the amount should be paid out pro rata. Mr. Chudley said he had checks made out to the full amount due each person. He was only waiting for the money from the city.

On motion it was ordered that some $1,000 be distributed pro rata.

A special committee consisting of Messrs. Brown, Crimp, and Wilson was appointed to investigate the actions of the consulting and visiting medical staff, as rumors had reached the board that some of them were not acting in the best interests of the hospital.

The meeting then adjourned.

A number of parishioners of the parish of St. Jean Baptiste, in the town of Nicolet, have drawn up a petition to the governor in council asking that the provincial law of 1894 authorizing their municipality to subscribe $8000 for the reconstruction of the cathedral of Nicolet and to assess the parishioners therefor, be disallowed as being ultra vires and unconstitutional. The petitioners hold the law complained of annuls previous rights acquired by them in virtue of a former act of the legislature.

For some time past the Salvation Army have been trying to hold meetings in St. Roch's ward, the most French and Catholic portion of Quebec. Tuesday night a big crowd gathered on Bridge street in front of a store owned by a man named Samson, announced as a French preacher of the Salvation Army. A shower of stones was thrown through the windows and doors, which were completely smashed. Two Salvation Army girls are reported badly hurt. No arrests could be made on account of the tremendous crowd assembled in front of the store.

Miscellany.

It is not generally known that in France it is forbidden, under severe penalties, for anyone to give infants under one year any form of solid food, unless such be ordered by written prescription, signed by a legally qualified medical man. Nurses are also forbidden to use, in the rearing of infants confided to their care, at any time or under any pretext whatever, any nursing bottle provided with a rubber tube. Several other similar and equally stringent laws have recently been enacted by the French government, which, despairing of obtaining any increase in the birth rate of their land, is now turning its attention to the saving of the few children that are born.

The Best Medicine.

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of **Ayer's Pills:**

"**Ayer's** Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employes for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely and

Permanently Cured

by the use of **Ayer's** Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of **Ayer's** Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."

"I have been selling medicine for eight years, and I can safely say that **Ayer's** Pills give better satisfaction than any other Pill I ever sold."—J. J. Perry, Spottsylvania C. H., Va.

BOARD OF TRADE.

Some Important Business Dealt With at This Morning's Council Meeting.

Government to be Asked to Make an Exhibition at the Tacoma Interstate Fair.

The council of the board of trade met this morning with President Flumerfelt in the chair and a full board present. Several letters on the fish industries were referred to the standing committee on fisheries.

The contract for printing and binding the annual reports was awarded to the Colonist, the lowest tenderer.

A special committee was appointed to devise some means of making the reading room more attractive.

The removal of the San Pedro from Brotchie ledge was brought up, and Mr. Earle, who was present, was asked to suggest what should be done. He advised that the board notify the receiver of wrecks. This will be done.

The following letter from the Edmonton board of trade was received and ordered to be acknowledged:

Edmonton, Alberta, July 30, 1894.

F. Elworthy, Esq., Secretary British Columbia Board of Trade, Victoria, B. C.

Dear Sir: My friend, Mr. W. T. Livock, of the H. B. Co., formerly of Victoria, having handed me the Colonist containing the annual report of your board, I notice that there is a prospect of the British Pacific railway scheme being carried out successfully. While this is anticipated in the West, the Manitoba and Northwestern railway has received aid to enable it to reach Prince Albert from the East, and as Edmonton would naturally become the buckle of the belt of railway so projected we feel highly interested in all that is being done in the matter.

The Pacific coast is the natural market for the great mixed farming country of which Edmonton is the capital, and standing as it does at the eastern gateway of the Jasper or Yellow Head Pass, it looks forward eagerly to the time when its exports to the Pacific will no longer be required to describe two sides of a triangle, via Calgary, to reach their natural market.

The interests of Victoria and Edmonton are in this respect alike, and their becoming linked hands of iron in the near future will serve as one more instance of the old natural routes of the fur traders being found the most suitable for the requirements of modern means of transport.

I hope you will be so good as to keep us informed of the progress of the British Pacific project, and if it should come to pass that the Edmonton people can in any way assist, let me assure you of their very hearty co-operation.

I notice your government has prepared a number of maps of British Columbia, a copy of which, if I am not asking too much, would be an acceptable addition to our board room.

I am, dear sir, yours very truly,

ISAAC COWIE, Sec.

A letter from W. S. Gore, deputy commissioner of lands and works, enclosing the following letter, was received:

Portland, Ore., July 5, 1894.

Hon. Forbes Vernon, Victoria, B. C.

Dear Sir: Mrs. Douglas, formerly of your city, gave me your name, and I take the liberty of addressing you in behalf of a friend of mine who is looking for a location to establish a sponging, finishing and dye works. He controls some $15,000 or $20,000, and would employ about thirty men. The party, Mr. John S. Clark, will come here very shortly, and I would like to hear from you before he gets here. Advise me if you think such a plant would pay Mr. Clark in Victoria or Vancouver, and if a company with $30,000 cash capital could be organized, $20,000 to be subscribed by Clark and $10,000 in Victoria or Vancouver? He is also the owner by purchase of the right to waterproof textile fabrics by a porous process. Silks, serges, woolens and all kinds of fabrics can be waterproofed without any injury whatever. He handles this in connection with the above described plant.

Very truly,

W. L. GAZZAM.

In answer to the following letter the president was requested to attend the meeting at Vancouver to-morrow:

FRASER VALLEY RELIEF.

New Westminster, August 4, 1894.

President of Board of Trade, Victoria, B.C.

Sir: The executive committee has already incurred obligations amounting to about $2,000 in excess of the funds available for the work of relief. It is the opinion of the committee that a large sum of money will yet be required even for the partial relief of those who have suffered most severely from the flood, and that the task of securing additional contributions ought to be undertaken at once in the various communities where it may be obtained. The committee entrusted with the work of relief does not feel justified in incurring any further obligations until funds have been provided for that purpose, and it has been deemed best under the circumstances to call a general meeting of the committee to consider ways and means. The meeting will be held at the Board of Trade rooms in the city of Vancouver, on Thursday next, August 9, at 11 a.m., and you are earnestly requested to be present. There are now in the hands of the committee several applications for relief which cannot be dealt with until after the general meeting. Yours truly,

THEO. LEWIS, Secretary.

Mr. Collyer, secretary of the Tacoma chamber of commerce, delegated to interview the board respecting an exhibit at the Tacoma interstate fair, was introduced by the president. After putting in a few good words for Tacoma and the former interstate fair he spoke of the exhibits that were to be made at the coming fair. A number of foreign countries intended to move their exhibits at the Midwinter Fair to Tacoma, the fair building having been made a bonded warehouse by the United States government. He had no doubt that the province would make a very creditable display, especially of minerals. Favorable rates would be made on the railroad and steamboat lines. In fact a rate of $2.50 for the round trip, including admission to the fair, would be made from Victoria. There would be a British Columbia day, when an endeavor would be made to have one or more of the British warships and several American ships present. The province should excel in a fish exhibit, the industry on the Sound not having been advanced to such an extent as it is on this side. The main object of the fair was to induce immigration. The city of Seattle was going to help Tacoma make the fair a success. The management would like the province as a whole to make an exhibit, but if that was impossible, they would like Victoria to make an exhibit. The large number who will be present at Tacoma should largely increase the attendance at the Victoria exhibition. The fair would open on the 15th of August, so the time was short, but the managers would reserve space.

Several members pointed out the difficulty of obtaining a mineral exhibit, the government having declined to send their collection of minerals to San Francisco.

Mr. Leiser moved, seconded by Mr. Croft, that a committee be appointed to wait on the government and ask that they make as good an exhibit as possible at Tacoma. The motion was adopted and the following committee was named: Messrs. Croft, Leiser, Renouf and Bostock.

The board expressed its appreciation of Mr. Collyer's presence, heartily endorsed the fair and recommended the co-operation of the city and province.

Mr. Collyer thanked the board for their kind expression.

The board adjourned at one o'clock.

THE GUN.

VICTORIA GUN CLUB.

At the regular meeting of the Victoria Gun club, held last evening at the Hotel Victoria, it was decided to hold the usual fall class firing shoot at Langford plains toward the end of the month. In addition to the shooting confined to members only, a free for all shoot will form one of the features of the day. It will be at ten singles, known angles and trap, ten singles unknown angle and known trap, and three pairs of doubles. A handsome purse will be given by the club for this event and no entrance fee will be charged.

THE RIFLE.

OTTAWA TEAM.

Of the eight men who made the highest scores at the recent provincial tournament and who were entitled to places on the Ottawa team, but two have declined to go. They are gunners Winsby and Martin. Gunners J. H. Sharpe and R. Wilson of New Westminster have been invited to take their places, Gunner Morkill, who stood before Wilson on the list, having declined to fill the vacancy. Lieut. J. D. Taylor, secretary of the provincial association, has been appointed captain, and will make arrangements for the trip. The team will probably be composed as follows: Lieut. J. D. Taylor (captain), Sergeant A. R. Langley, Gunner H. C. Chamberlin, Gunner J. McRobie, Gunner J. C. Chamberlin, Lieut. M. G. Blanchard, Gunner J. H. Sharpe and Gunner R. Wilson. At Ottawa the team will be joined by George Turnbull, who is on his way home from Bisley. Most of the members of the team have been to Ottawa more than once, and others have taken part in matches at Bisley and Wimbledon.

SAYWARD IS SAFE.

Report of Her Wreck Denied by the Crew of the Bowhead.

San Francisco, Cal., Aug. 8.—The loss of sealers in the Arctic is denied by the crew of the Bowhead. They say that the sealer Thomas is safe and that the schooner Sayward of Victoria, reported capsized and all hands lost, is also safe. The same is said of the schooner Unga.

NANAIMO NEWS.

Reform Club Arrange a Reception to be Tendered the Liberal Leader.

Nanaimo, Aug. 8.—At a meeting of the Reform Club last night Mr. R. Smith and Tully Boyce were appointed delegates to attend the opposition convention to be held at Vancouver on Tuesday next. Arrangements have also been made for a public Liberal meeting to be held in the Institute Hall about the 15th inst. Mr. Marchant, Senator McInnis and R. Smith will be the speakers. It was also announced that Hon. Mr. Laurier and party are expected here on September 4th. The programme for the occasion will be as follows: The silver cornet band will meet the party at the depot and conduct them to the Hotel Wilson. After luncheon an open air meeting will be held on the "green" and in the evening a public meeting in the opera house, followed by a banquet given by the members of the Reform Club.

The public meeting called for last evening in Institute Hall in aid of the sufferers of the Fraser River floods, was poorly attended and the work of appointing committees to gather subscriptions fell upon the few.

Through the medium of a Victoria tourist a Chinaman leper was discovered on the streets yesterday and immediately placed in custody. Dr. McKechnie examined the patient and pronounced it leprosy. Sing has been in the city since April last but has not been employed here.

The entertainment given under the auspices of the lacrosse club in the opera house last evening was largely attended. On the programme submitted to the audience were names of the best vocalists in the city. Miss Ella Leotta Swanton's part was well taken. Everybody appeared to be well satisfied with the entertainment.

At the last meeting of the school trustees about twelve applications for teachers were read. Miss Hayes was appointed to the third division of the girls' school and Miss Edwards to the North Ward school. The appointment in the 4th division, girls' school, was not filled.

TO-DAY'S TARIFF DISCUSSION.

Agreement May be Reached Either This Afternoon or To-Morrow.

Washington, Aug. 8.—Before the conference on the tariff met this morning Messrs. Gorman, Vest, Jones and Smith held a conference and as a result it is said, the present condition of affairs will be brought to a speedy crisis. It is said the end cannot be postponed longer than to-morrow. When the senate met to-day there were a number of consultations between the senators of both sides of the chamber and it was evident something important was on tapis. There is talk that the senate conferees are to be discharged from further consideration of the tariff. It is said the senate will then dispose of two conference reports on the pending appropriations bills and adopt a resolution for final adjournment leaving the tariff bill suspended.

When the conferees adjourned for lunch one of the number said there were good prospects of an agreement to-day or to-morrow.

The house agreed to a resolution providing for the investigation of the charge against Judge Ricks of the United States court of Ohio. A resolution directing the commissioner of labor to investigate the effect of machinery on labor and appropriating ten thousand dollars therefor, was passed.

It was stated late this afternoon that the tariff bill will surely be reported to-morrow, with the sugar rate 40 per cent. and 1-8 differential, iron ore free, coal 40 cents per ton for five years and after that free.

NEWS OF CALIFORNIA.

Trial of the Strikers at Woodland Continues.

Woodland, Cal., Aug. 8.—At the opening of the strikers' case this morning, J. E. Rice, Wells Fargo messenger, testified that the telegram sent by Jack Heeney at Red Bluff by Knox asking for volunteers, was sent over the postal wires. He was in the office at the time and heard it going through. When witness concluded Attorney Hunt complained that someone from the sheriff's office had been admitted to Worden's cell for the purpose of talking to him and protested against a repetition. Geo. B. Clarke, an engineer of one of the trains that brought the soldiers to Sacramento, testified to threats made at the mole prior to the train starting.

San Jose, Cal., Aug. 8.—Sleighers' pottery was burned early this morning. It is supposed to have been an incendiary. One building and the machinery cost $40,000. There was $20,000 worth of stock ready for shipment to-day. The loss is estimated at $150,000, with insurance of $20,000.

San Francisco, Cal., Aug. 8.—Durant Daponte, a prominent and wealthy citizen of New Orleans and at one time editor of the New Orleans Picayune, died in Alameda yesterday.

The Pacific Insurance Union yesterday adopted an amended compact. It is designed as a measure of economy, and reduces the compensation of canvassers, brokers and others. The chief interest to the public is that the compact lessens and almost destroys the rebates of policy holders.

San Francisco, Aug. 8.—Frank Larabee, the murderer of Effie Leroy, was removed to-day from the hospital to the jail. The surgeon says he is in no danger from his wound.

Fifteen San Jose strikers pleaded not guilty in Judge Morrow's court this morning.

Two men, residents of the western addition, left home this morning for a fishing trip down the bay in a sail boat. When opposite the mile rock a gust of wind struck the sail and capsized the boat. One of them was picked up in an unconscious condition. The other, named Petit, clung to the boat and was rescued by the life-saving crew.

Taxes have been paid on brandy in bond, amounting to $50,000, since July 27. Dealers are apprehensive of tariff imposts.

N.B. TRADE MARK THE VARNISHED BOARD ON WHICH THE GOODS ARE WRAPPED.

Priestley's Dress Goods

A good name is more potent than thrones and kingdoms. In business a good name is vital. The name of Priestley is a synonym for what is delicate, durable and beautiful in Black Dress Goods. In England it is a household word. Priestley's dress fabrics are worn by the well dressed women of Great Britain, while on this side, they have attained to general favor. Ladies should buy no other black dress goods till they have seen Priestley's. They add to an unequalled durability, a beautiful draping quality. Women of taste understand what that means in the success of a costume. 1

TO ADVERTISERS.

Orders for changes in the reading of advertisements must be handed in to the Times office before 10 a.m. to insure insertion the same day. New advertisements, displayed, will be received up to 3 p.m. and small ads. until 4 p.m. Advertisers and other patrons will aid us a great deal by observing these rules, as the work of re-setting requires time and care, and cannot be done satisfactorily when the paper is being prepared for press.
